Admin Panel [Tables]

The diagram illustrates the navigation flow through a Django Admin Panel, starting from a basic login screen and progressing to a detailed category management interface.

Step 1: Basic Login

A screenshot of the "Django administration" login page is shown. It features fields for "Username" (containing "admin") and "Password" (containing "...."), and a "Log in" button.

Step 2: Site Administration Overview

An arrow points from the login screen to the "Site administration" dashboard. This dashboard includes sections for "AUTHENTICATION AND AUTHORIZATION" (Groups, Users), "ORDERS" (Orders), and "SHOP" (Categories, Products). A sub-section under SHOP is highlighted with a yellow border, showing "Cakes" and "Product details".

Step 3: Detailed Category Management

A second arrow points from the overview screen to a detailed "Categories" management page. The URL in the header is "Home > Shop > Categories". The left sidebar shows the same navigation structure as the previous screen. The main content area displays a table titled "Select category to change" with the following data:

Action:	ID	NAME	SLUG	SHOP ID
<input type="checkbox"/>	1	Cheese Cake	CheeseCake	One
<input type="checkbox"/>	2	Chocolate Cake	ChocolateCake	One
<input type="checkbox"/>	6	Customize Cake	CustomizeCake	One
<input type="checkbox"/>	3	Napoleon	Napoleon	One
<input type="checkbox"/>	4	Sponge/Cream cake	SpongeCreamCake	One
<input type="checkbox"/>	5	Tart	Tart	One

The table contains 6 categories. A "Select category to change" dropdown menu is visible at the top right of the table area.
